MEMORANDUM FOR: Chief, Technical Services Staff

ATTENTION:

SUBJECT: Feasibility of Use of "Seal-Peel" for Certain Equipment

25X1

1. Questions have been raised as to the feasibility of coating certain items with "Seal-peel" as a preliminary step in caching.

2. It is requested that this Staff be informed as to those items listed below which may be dipped in "Seal-peel" without danger of detonation of or damage to the item in question. It is further requested that in any case where it is not feasible to use "Seal-peel", that TSS furnish recommendations as to the best method of caching such items.

3. The items are as follows:

Explosives and Incendiaries
